

Community Update on Measure I

Quality Education Continuation Measure

June 2016

Fremont Unified School District

Spring 2016

What is Measure I?

- Existing voter approved funding that helps maintain quality local education is scheduled to expire.
- To address this, on March 9th the Fremont Unified School District Board of Education unanimously placed Measure I on the June 2016 ballot.
- If enacted, Measure I renews expiring voter approved funding at the rate of \$73 per parcel for nine years, to help maintain quality education in local schools.

What's the background on this issue?

- Since 2010, Fremont voters have provided local funding to help maintain quality education in Fremont schools.
- The District's Parcel Tax Oversight Committee, has consistently reported all funds as having been spent properly to benefit all District students.
- No funds have been spent on administrators' salaries or pensions.
- If renewed, Measure I continues voter-approved local funding to maintain quality education.

How does Measure I help maintain quality education in local schools?

- Providing a solid educational foundation in math, science, reading and writing is a top priority in Fremont schools.
- If renewed, funding from Measure I continues to provide funds to maintain small class sizes, student safety, teachers and the math, science reading and writing programs that are at the core of our educational mission.

How does Measure I help prepare our students for College and 21st Century jobs?

- Fremont schools must continue to provide a 21st century education with the right instructional technology.
- If renewed, Measure I extends expiring funding that supports classroom and learning technology as well as retains quality teachers that prepare students for college and the workforce.

What are the priorities Measure I continues to fund?

If renewed, Measure I provides continued funding to:

- ▣ Maintain math and science programs
- ▣ Maintain reading and writing programs
- ▣ Retain quality science teachers for 21st century science education
- ▣ Attract and retain highly qualified teachers
- ▣ Relieve overcrowding in classrooms
- ▣ Keep school libraries open
- ▣ Protect student safety and security
