## Depth

### Language of the Discipline
- What terms or words are specific to the work of the ____?  
  (disciplinarian)
- What tools does the ____ use?  
  (disciplinarian)

### Details
- What are its attributes?
- What features characterize this?
- What specific elements define this?
- What distinguishes this from other things?

### Patterns
- What are the reoccurring events?
- What elements, events, ideas, are repeated over time?
- What was the order of events?
- How can we predict what will come next?

### Unanswered Questions
- What is still not understood about this area/topic/study/discipline?
- What is yet unknown about this area/topic/study/discipline?
- In what ways is the information incomplete or lacking in explanation?
Rules

- How is this structured?
- What are the stated and unstated causes related to the description or explanation of what we are studying?

Trends

- What factors contributed to this study?
- What ongoing factors have influenced this study?

Ethics

- What dilemmas or controversies are involved in this area/topic/study/discipline?
- What elements can be identified that reflect bias, prejudice, discrimination?
Complexity

Multiple Perspectives
- What are the opposing viewpoints?
- How do different people and characters see this event or situation?

Big Ideas
- What overarching statement best describes what is being studied?
- What general statement includes what is being studied?

Interdisciplinary Connections
- Integrate information
- Connect
- Associate
- Link Ideas
- What common theme connects the topics?
- How is one topic related to another?

Relationships Over Time
- How are the ideas related between the past, present, future?
- How are these ideas related within or during a particular time period?
- How has time affected the information?
- How and why do things change or remain the same?
